INDEX TO VOLUME 41*

A

Aberrant pancreas, intralobar enteric sequestration of lung containing (Beskin), 314
right subclavian artery with Kommerell's diverticulum (Shannon), 408
Acetylcholine arrest, effect on ventricular contractile force with cardiopulmonary bypass (Parker, Stilwell, Bradham, Tenney, and Darby), 770
Achalasia of esophagus in children (Swenson and Oeconomopoulos), 49
Adams, Jesse E. (with Killen, Duncan A., and Lance, Edward M.), The limitations of present techniques in the precise diagnosis of interatrial septal defects and description of an experimental method of defect visualization, 643
Agenesis of left pulmonary artery, surgical correction of congenital stenosis of right pulmonary artery accompanied by (Baxter, Booth, and Sirak), 796
Aiken, David Wyatt, A method of securing tubing connections in cardiopulmonary bypass equipment, 272
Air embolism following transdiaphragmatic pneumoperitoneum (Higgins and Batchelder), 158
Albertal, George (with Clauss, Roy H., Birtwell, W. Clifford, Lunzer, Steven, Taylor, Warren J., Fosberg, Anna M., and Harken, Dwight E.), Assisted circulation. I. The arterial counterpulsator, 447
(with Clauss, Roy H., Fosberg, Anna M., Taylor, Warren J., and Harken, Dwight E.), An improved electromagnetic flowmeter for extracorporeal circulation, 368
Alley, Ralph D., Discussion of rupture of aorta, 95
Alteration of cardiac output during induced hypotension (Schenk and Menno), 776
American Association for Thoracic Surgery, Program of 41st Annual Meeting, 416
Amosov, N. M. (with Berezovsky, K. K.), Pulmonary resection with mechanical suture, 325
Amplatz, Kurt (with Finsterbusch, Walter, Long, David M., Sellers, Robert D., and Lillehei, C. Walton), Renal arteriography during extracorporeal circulation in dogs with a preliminary report upon the effects of low molecular weight dextran, 252
Anastomosis, internal mammary-coronary artery (Goetz, Rohman, Haller, Dee, and Rosenak), 378
superior vena cava–pulmonary artery, experimental observations on (Palacios-Macedo, Pérez-Alvarez, Ortiz-Márquez, and Hernández-Peniche), 186
vascular, and bypass including applications, method for (Seltzer), 263
Andersen, Murray N., Studies during prolonged extracorporeal circulation: report of a four-hour perfusion in a patient, 244
Andrés, Rául H. (with Guastavino, Gerónimo, N., Wikinski, Jaime A., Quinterno, Jorge E., and Donadei, Carlos A.) A simple method for starting the siphonage of blood from venae cavae during mechanical bypass, 279
Andrews, Neil C., Thoracomediastinal plication: a surgical technique for chronic empyema, 809
Anemia, relief by repair of hiatus hernia (Johns and Clements), 737
Anesthesia, general, bronchoscopy under (Rogers and Erhardt), 817
Aneurysm(s), aortic, sacciform, large, treatment with patch grafts (Crawford, De Bakey, and Blaisdell), 479
intrathoracic, of vertebral artery, coaretation of aorta associated with (Fell, Hurwitt, and Bloomberg), 689
new apparatus for wiring of (Levene), 557
Angiographic diagnosis, importance in intralobar pulmonary sequestration (Turk and Lindskog), 299
study of dextroversion, persistent left superior vena cava, acquired mitral stenosis, and absent left kidney (Schreiner and Lyons), 694
Anomalous drainage of superior vena cava into left atrium (Kirsch, Carlsson, and Hartmann), 550

*January, pp. 1-140; February, pp. 141-280; March, pp. 281-420; April, pp. 421-560; May, pp. 561-700; June, pp. 701-840.

Anthracosis and silicosis in coal miners, surgical treatment of pulmonary tuberculosis associated with (Razemon and Ribet), 281
Antibiotics and extracorporeal circulation (Kittle and Reed), 34
Antifoaming agent, silicone, occurrence and characterization of emboli associated with use of (Thomassen, Howbert, Winn, and Thompson), 611
Aorta, ascending, and aortic arch, surgical management of penerating injuries of (Diveley, Daniel, and Scott), 23
and aortic sinus, subsidence of dilatation of, after resection of coaretation (Leider and Steinberg), 670
coarctation of, associated with intrathoracic aneurysm of vertebral artery (Fell, Hurwitt, and Bloomberg), 689
thoracic, report of 15 patients with traumatic rupture of (Spencer, Guerin, Blake, and Bahnson), 1
Aortic aneurysms, sacciform, large, treatment with patch grafts (Crawford, De Bakey, and Blaisdell), 479
arch and ascending aorta, surgical management of penetrating injuries of (Diveley, Daniel, and Scott), 23
sinus and ascending aorta, subsidence of dilatation after resection of coarctation (Leider and Steinberg), 670
stenosis, supravalvular; diagnosis and treatment (Starr, Dotter, and Griswold), 134
surgical treatment of (McGoon, Mankin, Vlad, and Kirklin), 125
Apneumatosis, lung, chronic, pulmonary and bronchial circulation in (Viola, Vaccarezza, Ugo, and Viscardi), 459
Apparatus, new, for wiring of aneurysms (Levene), 557
simplified, for gas analysis (Poth), 699
Arrhythmias, cardiac, incidence after noncardiac thoracic surgery (Calatayud, Kelser, and Caceres), 498
Arteriography, renal, during extracorporeal circulation in dogs with preliminary report upon effects of low molecular weight dextran (Finsterbusch, Long, Sellers, Amplatz, and Lillehei), 252
Atelectasis, nonobstructive, occurrence with pneumonitis (Burbank, Cutler, and Sbar), 701
rapidly reversible, due to change in position (Henry and Miscall), 686
Atrium, left, anomalous drainage of superior vena cava into (Kirsch, Carlsson, and Hartmann), 550
Auricular cartilage, patient's own, use in repair of deficiency of tracheal wall (Caputo and Consiglio), 594
Austen, W. Gerald (with Edmunds, L. Henry, Jr., Shaw, Robert S., and Kozminski, Stefan), Clinical and physiologic considerations of left heart bypass during cardiac arrest, 356
Autogenous lung oxygenation and closed pumping system, new cannula for bypass of left ventricle using (Muto, Walther, and Sise), 635

B

Bacterial contamination of oxygen used in cardiopulmonary bypass (Mortensen, Smith, and Hill), 675
Bahnson, H. T. (with Spencer, F. C., Guerin, P. F., and Blake, H. A.), A report of fifteen patients with traumatic rupture of the thoracic aorta, 1

Bauer, Albert J. (with Campbell, Donald, and Hewlett, Thomas H.), Congenital localized emphysema, 575
Bauer, Walter C. (with Le Gal, Yvon), Second primary bronchogenic carcinoma: a complication of successful lung cancer surgery, 114
Baxter, Chadwick F. (with Booth, Richard W., and Sirak, Howard D.), Surgical correction of congenital stenosis of the right pulmonary artery accompanied by agenesis of the left pulmonary artery, 796
Beattie, Edward J., Jr. (with Knock, Frances E.), Chemical and surgical removal of epicardium and visceral pleura, 178
Beihoff, P. (*see* Pemberton, Narodick, and Bortin), 275
Berezovsky, K. K. (with Amosov, N. M.), Pulmonary resection with mechanical suture, 325
Beskin, Charles A., Intralobar enteric sequestration of the lung containing aberrant pancreas, 314
Biopsy, submucosal, preoperative, segmental resection of bronchus with aid of (Wildstein, Friedman, and Baronofsky), 472

Birtwell, W. Clifford (with Clauss, Roy H., Albertal, George, Lunzer, Steven, Taylor, Warren J., Fosberg, Anna M., and Harken, Dwight E.), Assisted circulation. I. The arterial counterpulsator, 447

Björk, V. O. (with Fors, B.), Induced cardiac arrest, 387

(with Holmdahl, M. H:son, and Löf, B.), Transventricular mitral valvulotomy under controlled hypotension, 236

(with Hultquist, G., and Lodin, H.), Subaortic stenosis produced by an abnormally placed anterior mitral leaflet, 659

Blades, Brian (with Hughes, Richard K.), Multiple primary bronchogenic carcinoma, 421

Blaisdell, F. William (with Crawford, E. Stanley, and De Bakey, Michael E.), Simplified treatment of large, sacciform aortic aneurysms with patch grafts, 479

Blake, H. A. (with Spencer, F. C., Guerin, P. F., and Bahnson, H. T.), A report of fifteen patients with traumatic rupture of the thoracic aorta, 1

Blakemore, William S. (with Johnson, Julian, Kirby, Charles K., Joyner, Claude R., Helwig, John, Jr., and Zinsser, Harry F.), Left heart bypass as an aid to transventricular aortic valvulotomy, 787

Blanco, Gumersindo (with Rey-Baltar, Estanislo, and Bailey, Charles P.), Transposition of the great vessels, 509

Blood, banked, citrated, exchanged, use in priming extracorporeal circuit, experimental study (Ingram, Littlefield, and Muller), 760

flow, measurement through extracorporeal circuits (Robicsek, Sanger, Taylor, and Kolonits), 395

loss and transfusions during closed cardiovascular operations (Boone and Shumacker), 680

Bloomberg, Allan E. (with Fell, Stanley C., and Hurwitt, Elliott S.), Coarctation of the aorta associated with intrathoracic aneurysm of the vertebral artery, 689

Boone, Robert D. (with Shumacker, Harris B., Jr.), Blood loss and transfusions during closed cardiovascular operations, 680

Booth, Richard W. (with Baxter, Chadwick F., and Sirak, Howard D.), Surgical correction of congenital stenosis of the right pulmonary artery accompanied by agenesis of the left pulmonary artery, 796

Bortin, Mortimer M. (with Pemberton, Albert H., and Narodick, Benjamin G.), A stainless steel Y connector with valves for use in extracorporeal perfusion with a rotating disc oxygenator, 275

Boyd, David P., Discussion of hiatus hernia and esophagitis, 99

Bradham, Gilbert B. (with Parker, Edward F., Stilwell, James R., Jr., Tenney, James M., and Darby, Thomas D.), The effect of acetylcholine arrest on ventricular contractile force with cardiopulmonary bypass, 770

Brain, experimental circulatory arrest and electrical activity of (Lepore and Morin), 212

Braunwald, Nina S. (with Morrow, Andrew G.), Transventricular mitral commissurotomy: surgical technique and a hemodynamic evaluation of the method, 225

Brewer, Lyman A., III, Discussion of perforation of esophagus, 102

Bronchial cysts or mucoceles, localized emphysema in association with (Culiner and Grimes), 306

Bronchogenic carcinoma, primary, multiple (Hughes and Blades), 421

second (Le Gal and Bauer), 114

Bronchoscopy under general anesthesia (Rogers and Erhardt), 817

Bronchus, main-stem, pneumonectomy in treatment of traumatic rupture of: pulmonary and bronchial circulation in chronic lung apneumatosis (Viola, Vaccarezza, Ugo, and Viscardi), 459

segmental resection with aid of preoperative submucosal biopsy (Wildstein, Friedman, and Baronofsky), 472

Burbank, Benjamin (with Cutler, Seymour S., and Sbar, Sidney), Nonobstructive atelectasis: its occurrence with pneumonitis, 701

Burford, Thomas H. (with Wheat, Myron W., Jr.), Digtalis in surgery: extension of classical indications, 162

Bypass, cardiopulmonary, bacterial contamination of oxygen used in (Mortensen, Smith, and Hill), 675

effect of acetylcholine arrest on ventricular contractile force with (Parker, Stilwell, Bradham, Tenney, and Darby), 770

equipment, cardiopulmonary, method of securing tubing connections in (Aiken), 272

left heart, as aid to transventricular aortic valvulotomy (Johnson, Kirby, Blakemore, Joyner, Helwig, and Zinsser), 787

Bypass, left heart—Cont'd
during cardiac arrest, clinical and physiologic considerations of (Edmunds, Austen, Shaw, and Kozminski), 356
ventricle using autogenous lung oxygenation and closed pumping system, new cannula for (Muto, Walther, and Sise), 635
mechanical, simple method for starting siphonage of blood from venae cavae during (Guastavino, Wikinski, Andrés, Quinterno, and Donadei), 279
and vascular anastomosis, method for (Seltzer), 263
Bypassing the obstructed vena cava, new method of (Schramel and Olinde), 375

C

Caceres, Cesar A. (Calatayud, Juan B., and Kelser, George A., Jr.), Incidence of cardiac arrhythmias following noncardiac thoracic surgery, 498
Calatayud, Juan B. (with Kelser, George A., Jr., and Caceres, Cesar A.), Incidence of cardiac arrhythmias following noncardiac thoracic surgery, 498
Campbell, Donald (With Bauer, Albert J., and Hewlett, Thomas H.), Congenital localized emphysema, 575
Campbell, Gilbert S. (with Keith, Howard B., Ginn, Earl, and Williams, G. Rainey), Massive hemolysis in extracorporeal circulation, 404
Cannula, new, for bypass of left ventricle using autogenous lung oxygenation and a closed pumping system (Muto, Walther, and Sise), 635
Caputo, Vito (with Consiglio, Vittorio), The use of patient's own auricular cartilage to repair deficiency of tracheal wall, 594
Carbon dioxide, expired, as continuous guide of pulmonary and circulatory systems during anesthesia and surgery (Leigh, Jones, and Motley), 597
Carcinoma, bronchogenic, primary, multiple (Hughes and Blades), 421
second (Le Gal and Bauer), 114
Cardiac arrest, clinical and physiologic considerations of left heart bypass during (Edmunds, Austen, Shaw, and Kozminski), 356
induced (Björk and Fors), 387
arrhythmias, incidence after noncardiac thoracic surgery (Calatayud, Kelser, and Caceres), 498
output, alteration during induced hypotension (Schenk and Menno), 776
septa and right ventricular outflow tract, reconstruction with Teflon patches (Edwards), 631
Cardiac—Cont'd
surgery, extracorporeal circulation in (Zerbini, Jatene, Macruz, Curi, and Verginelli), 205
Cardiopulmonary bypass, bacterial contamination of oxygen used (Mortensen, Smith, and Hill), 675
effect of acetylcholine arrest on ventricular contractile force with (Parker, Stilwell, Bradham, Tenney, and Darby), 770
equipment, method of securing tubing connections in (Aiken), 272
Cardiovascular adaptation to acute ventricular septal defect, study of mechanisms of (Siegel), 523
operations, closed, blood loss and transfusions during (Boone and Shumacker), 680
Carlsson, Erik (with Kirsch, Wolff M., and Hartmann, Alexis F., Jr.), A case of anomalous drainage of the superior vena cava into the left atrium, 550
Cartilage, auricular, patient's own, use in repair of deficiency of tracheal wall (Caputo and Consiglio), 594
Cerebral complications of open-heart surgery (Ehrenhaft and Claman), 503
Chapman, Kyle W. (with Hill, Lucius D., and Morgan, Edward H.), Objective evaluation of surgery for hiatus hernia and esophagitis, 60
Chemical and surgical removal of epicardium and visceral pleura (Knock and Beattie), 178
Childs, W. A. (with Reddix, M. C.), Reconstruction of the raw surface after pulmonary segmental resection, 465
Circuits, extracorporeal, measurement of blood flow through (Robicsek, Sanger, Taylor, and Kolonits), 395
Circulation, assisted. I. The arterial counterpulsator (Clauss, Birtwell, Albertal, Lunzer, Taylor, Fosberg, and Harken), 447
pulmonary and bronchial, in chronic lung apneumatosis (Viola, Vaccarezza, Ugo, and Viscardi), 459
Circulatory arrest, experimental, and electrical activity of brain (Lepore and Morin), 212
and pulmonary systems during anesthesia and surgery, expired carbon dioxide as continuous guide of (Leigh, Jones, and Motley), 597
Citrated banked blood, exchanged, use in priming extracorporeal circuit, experimental study (Ingram, Littlefield, and Muller), 760
Clagett, O. Theron, Discussion of achalasia of esophagus, 99
(with Schmidt, Herbert W., and Harrison, Edgar G., Jr.), Benign tumors and cysts of esophagus, 717

Clauss, Roy H. (with Birtwell, W. Clifford, Albertal, George, Lunzer, Steven, Taylor, Warren J., Fosberg, Anna M., and Harken, Dwight E.), Assisted circulation. I. The arterial counterpulsator, 447
(with Albertal, George, Fosberg, Anna M., Taylor, Warren J., and Harken, Dwight E.) An improved electromagnetic flowmeter for extracorporeal circulation, 368
Clements, Ernest L. (with Johns, Thomas N. P.), The relief of anemia by repair of hiatus hernia, 737
Closure of full-thickness esophageal defects, use of intact lung for (Moore, Goldstein, and Teramoto), 336
Coarctation of aorta associated with intrathoracic aneurysm of vertebral artery (Fell, Hurwitt, and Bloomberg, 689
resection of, subsidence of dilatation of ascending aorta and aortic sinus after (Leider and Steinberg), 670
Congenital esophageal web (Goldenberg and Smith), 733
localized emphysema (Campbell, Bauer, and Hewlett), 575
stenosis of right pulmonary artery accompanied by agenesis of left pulmonary artery, surgical correction of (Baxter, Booth, and Sirak), 796
Consiglio, Vittorio (with Caputo, Vito), The use of patient's own auricular cartilage to repair deficiency of tracheal wall, 594
Contamination, bacterial, of oxygen used in cardiopulmonary bypass (Mortensen, Smith, and Hill), 675
Contractile force, ventricular, with cardiopulmonary bypass, effect of acetylcholine arrest on (Parker, Stilwell, Bradham, Tenney, and Darby), 770
Coronary artery-internal mammary anastomosis (Goetz, Rohman, Haller, Dee, and Rosenak), 378
right, in dog, evaluation of experimental ligation of (Gutelius, Vasko, and Sabiston), 790
strip grafting on (Senning), 542
Costectomy area, positive support of thoracoplasty by introduction of liquid into (Seaman), 572
Counterpulsator, arterial. I. Assisted circulation (Clauss, Birtwell, Albertal, Lunzer, Taylor, Fosberg, and Harken), 447
Crawford, E. Stanley (with De Bakey, Michael E., and Blaisdell, F. William), Simplified treatment of large, sacciform aortic aneurysms with patch grafts, 479
